

# ABOUT INSIDETRACKER

Every day, there's a new wellness trend: "Eat that; do this; avoid those!" InsideTracker is an ultra-personalized performance system that analyzes data from your blood, DNA, lifestyle and fitness tracker to guide and help you live, age, and perform better. Transform your body's data into true knowledge, meaningful insights and customized Action Plans of science-backed, nutrition, fitness and lifestyle recommendations.

## WHY INSIDETRACKER

### Ultra-personalized

Powered by science, technology and you, we deliver truly personalized guidance.

### Real-time & holistic

The only system that integrates real-time physiomer data from your fitness tracker with your blood and DNA biomarker data to provide new levels of precision and customization.

### Science-backed

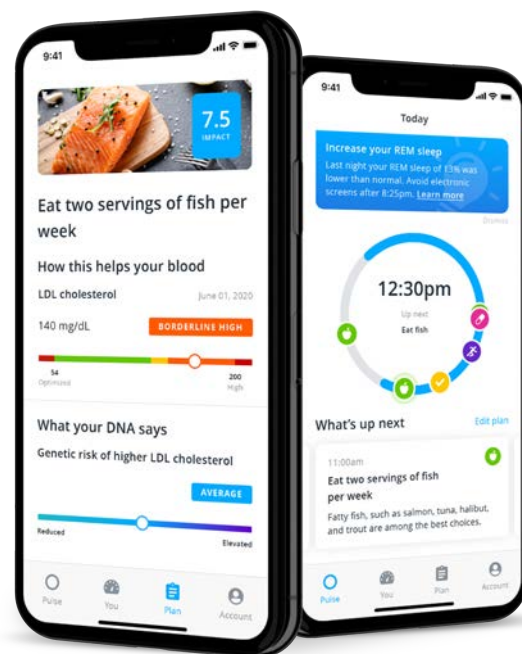

Each recommendation is backed by science, rigorously reviewed and directly linked to a published, peer-reviewed scientific journal.

### Optimized, not "normal"

We don't merely show the "normal" biomarker zones, we show the optimal biomarker zones that are best for your body.

### Track progress & calibrate

Track your progress and adjust based on real-time feedback from your body.
